The Cyklop CM 100 is the basic model high resolution inkjet printer and suitable for printing on various materials. Thanks to its solid and compact design, the CM 100 can be effortlessly integrated in various places within the packaging process. The quickly exchangeable ink cartridges are available for porous and non-porous surfaces.

The information to be printed can be adjusted using the Wi-Fi / USB keyboard or via a free app. Up to 100 messages can be stored in the printer's memory. This coding system features an integrated photocell and comes complete with wireless keypad and standard mounting hardware. The printer can be password protected.

Advantages

- Rapidly changeable HP ink cartridges
- High resolution prints
- Print height 12.7 mm maximum
- Up to 6 print lines, up to 150 characters per line
- Print speed up to 76 meters / min
- Data transfer via bluetooth, USB or wireless keyboard
