LCM 100

PAPER TAPE DISPENSER

LCM 100

Paper tape is the environmentally friendly solution for closing boxes. The packaging can be recycled in its entirety after use, including the adhesive tape. Due to the direct and strong adhesion, paper tape is also suitable for heavy packaging. Another great advantage of paper tape is that it cannot be removed without damaging the box, which has a preventive effect against theft.

Paper tape can be divided into two types: self-adhesive tape and gummed tape. Gummed tape only sticks after the adhesive layer is activated with water. A dispenser is therefore always required for application.

Taping and coding in one

The LCM 100 paper tape dispenser is an electrical tape dispenser for gummed paper tape (Lapomatic) equipped with the CM 100 coding unit. The machine is suitable for sealing and coding large numbers of packages at the same time. Print the date, your logo or website on the adhesive tape for optimal recognition.

Advantages

- Closing and coding at the same time
- Suitable for paper tape
- Accurate length detection
- Repeat button for 2 lengths
- Automatic power cut-off after 30 minutes
  without use
- Print height up to 12.7 mm

Technical data:	
Speed	33 mtr / min
Dimensions (L x W x D)	450 x 290 x 250 mm
Consumable	Every type of gummed paper tape
Roll width	Max. 200 mm
Ejection length	100 - 2100 mm
Outer roll diameter	Max. 200 mm
Water reservoir	1300 cc
Water temperature	Adjustable (50˚ - 75˚ - 100˚)
Power supply	230 V / 50 Hz / 1 phase
	Cut-off after 30 minutes
Weight	15 kg
Noise	70 dB
Print resolution	Max. 600 x 600 dpi
Print height	Max. 12,7 mm
Number of printlines	Max. 6, up to 150 characters per line
